

Trial on Tear Gas Gun

Considering the huge gap between demand and supply of Tear Gas Guns, this Bureau has conceived the idea about the production of Tear Gas Guns through Ordnance Factories. As the production capacity of existing manufacturing unit i.e. CENWOSTO (Central Workshop and Stores), BSF, Tekanpur was very limited and unable to meet the requirement of law enforcing agencies of the country. Various trials of prototype Tear Gas Guns manufactured by Ordnance Factory, under the supervision of BPR & D were carried out. Finally, the Tear Gas Guns of Ordnance Factories have been approved by MHA (Ministry of Home Affairs). So far Ordnance Factories manufactured and supplied about 5000 nos. of Tear Gas Guns to Security Forces.
