Gurgaon - 1st Commissionerate of Haryana to get state-of-the-art Control Room

The Development Division of BPR & D organized a presentation on Integrated Control Room by Sungard Vivista, at the Conference Hall of Bureau on 5th July, 2007. Sungard is involved in providing solutions for an Integrated Control Room. The company offers all the key components to enable a seamlessly integrated and co-operative front office and control room solution. Following are the main features of this type of Integrated Control Room:

- High performance and, therefore, a fast

response to emergency calls.

- Ready access and presentation of information allows operator to direct resources safely and effectively.
- Inter-operation with call handling solutions and data exchange allows a fully informed response to be provided to callers.
- A pilot study/project on 'no cost, no commitment' basis has been tied up between newly formed Police Commissionerate of Gurgaon and Sungard.

Puncture Free Sealant

The Development Division of BPR&D organized a presentation on OKO puncture free tyre sealant on 12th July, 2007, at the Bureau's Conference Hall. This product is very effective in sealing the punctured tyres of vehicle.

A solution is injected in the tyre and it is continuously moving inside the tyre. Whenever a puncture occurs, the sealant immediately seals the puncture without driver realizing it. The solution is effective for tube as well as tubeless tyres. A hole of up to 8 mm can be sealed with OKO sealant.

Video conferencing with CDTs :

All the 3 CDTs and BPR&D are now connected through Videoconferencing. This use of technology has allowed direct interaction with trainees in different courses at CDTs. The live feedback received from the trainees has been very effective. It is worth the effort.

Training Modules on web :

Training modules on Investigation of Road accidents/lifting of evidence/medical jurisprudence placed on website.
